

# ONLINE RFQ / ORDERING FORM:

Fail-Proof Automatic Lubricator / Product Description		Quantity
	Type <b>01-Month</b> continues discharge Lubricator King® Universal / Multipurpose Grease filled	
	Type <b>03-Month</b> continues discharge Lubricator King® Universal/ Multipurpose Grease filled	
	Type <b>06-Month</b> continues discharge Lubricator King® Universal/ Multipurpose Grease filled	
	Type <b>12-Month</b> continues discharge Lubricator King® Universal / Multipurpose Grease filled	
Extension Lines, is not necessary but should a Client need to mount their Lubricator a Meter away from grease point, we do supply basic Extension Line Fittings for the set-up of Extension line for your Automatic Grease Lubricators:		
	6mm ID, 8mm OD - Nylon <b>Extension Pipe</b> (1 Meter) Transparent. 100°C temperature Resistant..	
	Metal <b>Clip-on Fitting</b> <> 1/4 Inch <b>Male</b> Threaded (to clip onto Extension Line and to Screw into Grease Nipple)	
	Metal <b>Clip-on Fitting</b> <> 1/4 Inch <b>Female</b> Threaded (Lubricator king® Lubricator thread point is 1/4 male, hence a 1/4 female fitting always used on the one side of your extension line for your Lubricator king® Lubricator to be installed)	
	Spring steel <b>Support Clip</b> (to bolt into equipment guard where you are using Lubricator, to Hold the Lubricator, when you install Lubricator on Extension Line)	
Other sizes Lubrication fittings	Client to type specification of Fitting and size on every side of fitting.	

Free with every Order : ISO9001 Quality Identification Sticker with all the O.E.M Details for use on site, and A2 Visual Management Poster as secondary Tracking method of your Change-over dates of your Lubricators installed.
